QSO VERIFIED BY: .....Willy.....

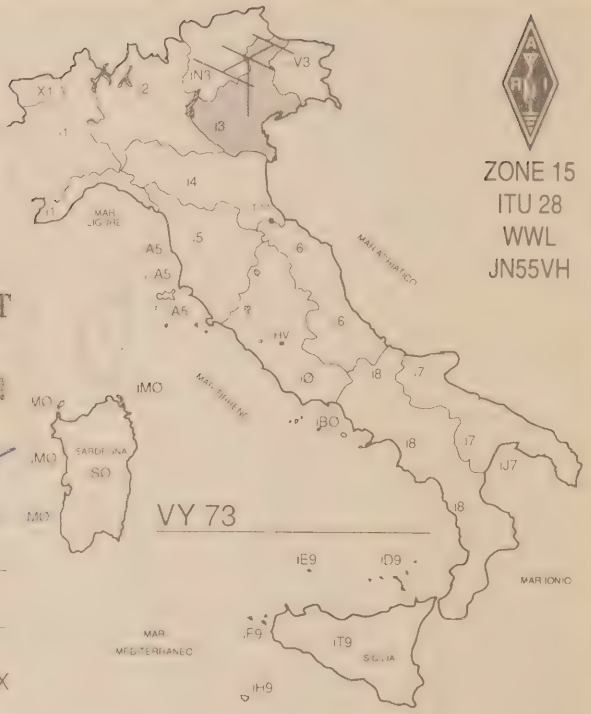

St. Maarten / St. Martin is located in north-east corner of Caribbean. Populations and sizes are: Dutch side 19 000 and 26 km^2, French side 1600 and 54 km^2.
Sharing a comparatively shallow submarine plateau with the islands of Anquilla, St. Barths and St. Maarten / St. Martin may once have been a large combined land mass before the raising of the oceans at the end of the ice age separated the three islands.
First residents moved northward from the Amazon Basin and were called Arawaks.
Sometime in November 1493 Columbus sailed by the island.
As early as 1624 both Dutch and French explorers landed on the island.
Spanish captured St.Maarten at 1633 but at 1648 both the Dutch and French had returned to the island.
After some haggling over the legal text of the agreement between the participants written way back in 1648, the island finally settled down after 1869 to relative years of calm.

VERIFIED KK6XN TNX QSL

Entering my 4th decade of contesting, it was my great pleasure to visit Harry in November, 1989, to assist him in construction of his dream station high on a hill overlooking the beautiful Caribbean. With terrific assistance from 9Y4VU, 9Y4EH, 9Y4RM, 9Y4SO, 9Y4SP, 9Y4RJS, and SWLs Jan and Budrick, the antenna system was completed in time for CQ WW CW. An 80-ft guyed tower, shunt-fed for 160M, holds a KT-34XA, S-402, and 2-element wire beam for 80M.

Special thanks go to N6AA and N6TJ for encouragement and valuable guidance. Thanks also to N6RJ of Ham Radio Outlet, and N6ND, K6STI, K6JYO, W6KUT and other members of San Diego DXC and Southern California Contest Club (SCCC) for logistics support. Aztec RF (Box 1625, Valley Center, CA 92082) supplied high performance, external ferrite-bead baluns for the antennas, and contributed the QSL cards.

NAVASSA ISLAND – 18° N, 75° W

Navassa Island lies 90 miles south of Cuba, 100 miles northeast of Jamaica and 30 miles west of Haiti. The 1.5 square mile island is uninhabited. The landing is accomplished by climbing a wire rope ladder that dangles about 40 feet from a cantilevered catwalk over the ocean. This site is known as Lulu Bay.

We gratefully express our thanks and appreciation to all the many individuals and organization who provided financial and other forms of assistance. Your support is recognized as a major contribution to the success of this DX-Pedition. Special thanks to WØRJU, ADØP, NXIL, N2EDF, W2MIG, W2IYX, WB2CH0/6, W5KNE, W6PQS, W6CNA, KP2A, JA1DM, JA1ELY, LA8CJ, UV3GZ, IDXF, RADIO WORKS, INC. for donating the Carolina Windom antennas, 6Y5LA and Mr. Frank Vieira in Jamaica, NCDXF, DX MAGAZINE, EUROPEAN DX FOUNDATION, L.I. P. O. Box 73, Edgemont, PA 19028 U.S.A.

THE VIRGIN ISLANDS OF THE UNITED STATES

Discovered by Columbus, the U. S. Virgin Islands were eventually purchased in 1917 from Denmark, by the United States and made a self-governing territory. The Virgin Islands are located East of Puerto Rico. They have a population of 120,000 people living on the three largest islands of 65 islands, cays and rocks. The temperature never strays far from 25 degrees C year 'round. The wonderful weather, crystal clear water and white sand beaches help make tourism the chief industry, with well in excess of one million visitors annually.

KP2A - JOHN ACKLEY

John was first licensed as J2USA in Tokyo, Japan. Subsequent calls have been W1VKS, D4AIA (and then DL4IA), WB2LZO, F5ZC, KV4CH, KV4KV, and KP2A. John has been very active from home as well as on various DXpeditions. These DXpeditions have included such places as 3A2AP, PX1AA, VP2LGA, VP2DXF, KV4KV/D, KP4AM/D, FOØAKV, VP2EET, J73A (Hurricane David emergency), VS5KV, VP2VFW, 4S7DX, 8Q7AR, 9M6MU, HS1AMU, 9N1MM, VS6CZ, CR9A and JR3CQC.

IDXF - INTERNATIONAL DX FOUNDATION

Established 1978 by KP2A to promote international goodwill and understanding by person to person contacts via amateur radio. IDXF sponsors DXpeditions and amateur radio operations in the lesser developed nations. For U.S. taxpayers, donations are deductible for tax purposes. Please send your donations to International DX Foundation, 6 Covey Road, Hyde Park, NY 12538, U.S.A.

U. S. VIRGIN ISLANDS

LICENSEE: JOHN ACKLEY, KP2A

Box 10245, Charlotte Amalie, St. Thomas, U. S. Virgin Islands 00801

QSL Manager: JOE ARCURE, Jr., W3HNK

P. O. Box 73, Edgemont, PA 19028 U.S.A.

THE VIRGIN ISLANDS OF THE UNITED STATES

Discovered by Columbus, the U. S. Virgin Islands were eventually purchased in 1917 from Denmark, by the United States and made a self-governing territory. The Virgin Islands are located East of Puerto Rico. They have a population of 120,000 people living on the three largest islands of 65 islands, cays and rocks. The temperature never strays far from 25 degrees C year 'round. The wonderful weather, crystal clear water and white sand beaches help make tourism the chief industry, with well in excess of one million visitors annually.

KP2A - JOHN ACKLEY

John was first licensed as J2USA in Tokyo, Japan. Subsequent calls have been W1VKS, D4AIA (and then DL4IA), WB2LZO, F5ZC, KV4CH, KV4KV, and KP2A. John has been very active from home as well as on various DXpeditions. These DXpeditions have included such places as 3A2AP, PX1AA, VP2LGA, VP2DXF, KV4KV/D, KP4AM/D, FOØAKV, VP2EET, J73A (Hurricane David emergency), VS5KV, VP2VFW, 4S7DX, 8Q7AR, 9M6MU, HS1AMU, 9N1MM, VS6CZ, CR9A and JR3CQC.

IDXF - INTERNATIONAL DX FOUNDATION

Established 1978 by KP2A to promote international goodwill and understanding by person to person contacts via amateur radio. IDXF sponsors DXpeditions and amateur radio operations in the lesser developed nations. For U.S. taxpayers, donations are deductible for tax purposes. Please send your donations to International DX Foundation, 6 Covey Road, Hyde Park, NY 12538, U.S.A.

JOHNSTON ATOLL is located 717 miles SW of honolulu. It is one of the most isolated atolls in the world. Slowly sinking, it rests on the core of an ancient volcanic island now buried under a limestone cap thousands of feet thick. 30 years ago, Johnston Island was 60 Acres in size. Major dredging and filling operations have made the island, now 600 Acres, to appear like a very large aircraft carrier. As a national wildlife refuge and sanctuary for many rare species of tropical birds, home for about 1200 US military and civilian personnel, and site of the first commercial sized chemical weapons disposal facility, Johnston Island has become a model of man-controlled ecological balance. The climate is marine and tropical in nature with little variation in temperature, moderate rainfall, and predicable NE trade winds.

ALOHA from the central Pacific Ocean.

CY9CF

SAINT-PAUL island
DXpedition 1990

CY9CF, the Canada-France expedition, was the 9th DXpedition to Saint Paul island since the island became a DXCC country in 1975. It was also, to our knowledge, the first time a DXpedition originated from Saint-Pierre & Miquelon.

The goal was to spend up to ten days on Saint Paul, if the weather permitted, in early fall. Just ahead of worsening winter weather but late enough to take advantage of improving propagation conditions. The team managed a compromise of six and one half days as high seas and bad weather delayed our arrival and forced us to leave earlier than hoped.

The team consisted of Patrick**FP5DX (F2DX)**, Gus **VO1MP**, Ron **FP/VE1KM** and **Jean-Michel Bourdin**. Patrick is a well know DX operator and contester, often the centre of a pile-up, and can operate into the early hours without sleeping. Gus is one of Canada's better contesters, an ambidexterous CW operator, the grandfather of the expedtion who was able to join the expedition on very short notice and make a major contribution in equipment. Ron is a weekend ham most likely to be found on the DX nets, and able to move large amounts of equipment great distances. Jean-Michel, not an amateur radio operator but without a doubt an indispensable team member, he is an experienced diver. For the DXpedition he took care of us, from coffee to crossing over to the large island to erect the 160 m dipole. We made 17.139 QSO in 145 DXCC countries during the 4 and a half days that the stations where operational.

The island itself is located off Canada's east coast, between the north western tip of Nova Scotia and Newfoundland in Cabot Strait (**47°12'N 60°09'W - CQ zone 05 - ITU zone 09 - IOTA NA10**). Called "Giogtao Menigog" by the MicMac indians Saint Paul had many other names as it changed hands between the french and english before becoming part of Canada. Its unfortunate location on one of the more heavily travelled shipping routes at the east end of the Gulf of St. Lawrence resulted in hundreds of shipwrecks on its inhospitable rocky shores and it became know as the Graveyard of the Gulf. Modern communications and navigation equipment have over the years made the island less of a hazard and today the fishing boats will anchor off the leeward side in bad weather, but few venture close and even fewer would attempt to land on the island.

This QSL card is dedicated to the momory of the Light Keepers, the Life Saving Crews, the Radio Operators and the Canadian Coast Guard who over the years have relieved the sufferings of the shipwrecked travellers and saved others from an unfortunate end here.

In October 1989, my father, N1AU, and I fulfilled a twenty-year-long dream of DX-peditioning together for the best contest of the year, the CQ WW! Our wives hoped that one trip would satisfy us, but they were wrong! We returned for the 1990 CQ WW SSB contest, and paid special attention before the contest to 160 and 80 meters and the WARC bands. We made 11,500 QSOs during our stay, including 9 million points for the contest, besting our all time Father/Son record from last year! Our warmest thanks to Ruben, Danielle, Rosalie, and the rest of the staff at the Coralita Beach Hotel, and to the following hams who assisted with the trip: K1GW, NB1H, W1FBX, W1FJ, and WA1HXH. 73, and thanks to all who worked us!

DUBAI, UAE

The United Arab Emirates are a federation of seven Emirates covering an area of 33,000 square miles along the eastern coast of the Arabian Peninsula. Dubai, the second largest Emirate, is the most important business and trading center. Abu Dhabi is the capital and largest city in the U. A. E. In 1989 Saeed Al-Maktoum became the fourth ham licensed in the country. I feel honored to have been allowed to guest op Saeed's station. We hope this is a new country for you.

			28	144	432			
GMT	1915	MODE	AM	FM	(CW)		QSL	PSE TNX 73
			SSB	RTTY				

Belgium is one of the smallest European Countries. In 1980 it commemorates the 150th anniversary of its independence. The foundations were laid after the battle of Waterloo, where Napoleon was defeated in 1815.

The liberated Netherlands were then formed to be a bufferstate and were united into one state. The Dutch and the Belgians, under King William I however, did not get along too well.

In 1830 after the performance of the opera called « The Mute of Portici » in the « Munt »-theatre in Brussels, the revolution started and soon exploded all over the Southern Netherlands.

Out of this revolution arose the independence of Belgium, and in 1831 they offered the throne to Leopold of Saxon-Coburg, who became the first King of the Belgians.

1 point for „OLYMPIADA-80" award. PSE QSL
pse 80, MOSCOW. 73! op. Nikolai

The «OLYMPIADA-80» Award

Sponsored by Radio Sports Federation of the USSR and Krenkel Central Radio Club the Award is due to commemorate the XXII. Olympic Games to be held in Moscow in 1980.

All QSOs must be made within the time period of 1. January — 3. August, 1980 with either

— any USSR station using one of the following special prefixes: RK1, RW1, RX1, RZ1, RK2, RU2, RZ2, RK3, RV3, RW3, RX3, RZ3, RK5, RT5, RY5, RZ5—1 point per QSO; or

— any other Moscow (Obl. 170) station — 1 point/QSO; or

— special «olympic» club stations RM3O, RT2O, RL1O, RK5O or RM2O — 5 points/QSO.

Each station may be worked only once for points credit. Total amount of points required: Europe — 40, North and South America, Africa, Asia — 20, Australia & Oceania — 10. Europeans have to work also any 2 of the five «olympic» stations, all other applicants — at least one of them.

The Award is free. Send extract of your log verified by the local radio club official or two licensed amateurs to P. O. Box 88, Moscow, USSR.

«Olympic» stations time schedule:

RM3O (Moscow) and RT2O (Tallinn) — 1. July ... 3. Aug, 1980.

RL1O (Leningrad), RK5O (Kiev) and RM2O (Minsk) — 15. July ... 3. Aug, 1980.

All other special prefixed stations: 1. Jan ... 3. Aug, 1980.

Gallops Island

IOTA: NA 148 **Gallops Island** **AA1IZ** US: MA 025 S

Gallops Island, located in Boston Harbor at 42° 19.5'N lat and 70° 56.4'W long, is one of 16 islands that make up the Boston Islands State Park. Its 16 acres, once a summer residence for Native Americans, was named after Captain John Gallop, who owned the island in the early 17th century. Through the years it was used as farm land. In 1886 Boston opened a quarantine hospital to accommodate sick immigrants. Between 1940 and 1946 the US government established and ran the Gallops Island Radio School, where over 5000 men were trained. This DXpedition is the first radio activity on Gallops Island in 50 years. We dedicate our efforts to the memory of those who were here before us.

Our station consisted of a 4.5kw generator, a Yaesu FT890AT, and an FL2100B amplifier running 600watts into either a 4 element tribander or a 180ft center-fed zep. By Sunday afternoon we had over 1000 QSOs and had demonstrated amateur radio to hundreds of weekend visitors to the island. We logged with Super Duper IOTA.

Our thanks to the Boston Harbor State Parks for granting us permission to operate, to the members of the Framingham ARA for their support, and to all the stations that came up on frequency to work us.

CONFIRMING QSO WITH	DATE			UTC	MHZ	RST	MODE 2-WAY
	DAY	MONTH	YEAR				

On this DX'pedition to the island of Tortola, British Virgin Islands, David Ritchie, N6DLU, and Paul Gordon, N6LL operated on all bands, 160 thru 2 meters, and made 3300 QSO'S during the CQWW contest. Located 60 miles east of Puerto Rico in the Caribbean Sea, VP2V is known for it's wonderful snorkeling, scuba diving, and yachting.

Our thanks to N6AA, N6CW, VP2VA, VP2VI, & you for the QSO.

BIR LEHLU
IL56FI

The Saharan Arab Democratic Republic or RASD —formerly Spanish Western Sahara— was formally proclaimed on February 27, 1976 in Bir Lehlou. To date, the RASD has benn recognized by 71 countries and it is the 51st. member of the Organization of African Unity (OAU). The country is borbered on the north by Morocco, on the south and sotheast by Mauritania and on the east by Algeria and the west by Atlantic Ocean. The physical character of the area has many faces, ranging from vast stretches of desert to green oases from worthless sand to valuable phosphate deposits and fishing.

Our DXpedition to Albania has been carried out according to the cooperation agreement between Hungarian Radioamateur Society and Albanian Radioamateur Society. The outcome of our activity is a fully equipped Albanian radio club station and a crew of trained operators.

This operation would not have taken place without the invaluable help and personal commitment of: Mr. Agim Zeka, vice minister of Ministry of Culture, Youth and Sport in Tirana, who has been working on this projekt since 1990, and Mr. Myftar Fana, president of Albanian Radioamateur Society.

The ZA 1 HA group would like to acknowledge the following whose contributions ensured the succes of this operation: European DX Foundation; Victoria-KFT Salgótarján; HA1UF; HA4XW; HA5EB; HA5HR; HA6NY; HAØLC

73 de WA6CDR Thanks QSL

The Europa Point Lighthouse has a beautiful view of the straits of Gibralter, the entrance to the Mediterranean Sea. Thanks to Henry and, John, ZB2EO, for making this DXpedition possible; and to Brian, Mike, and their families at the Lighthouse for all their help and patience! This made it possible for me to make 4000 QSOs using a TS-440S and dipoles for all bands, 160-10 Meters.

HOW TO MAKE 75.000 QSOS IN A FORTNIGHT?

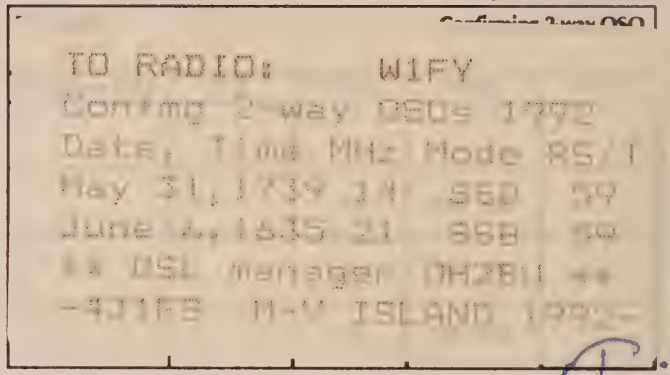

The fourth Malyj Vysotskij Island (M-V Island) DX-pedition in May-June 1992 was a joint venture operation by OH2AQ, OH1AF and UZ1AWT club stations. Between May 26 - June 9, the small island, located in the Bay of Vyborg, within Russian territory, was home to nine stations, including 17 antennas, seven generators etc. For logistics, we relied on M/S Kristina Brahe, a 70 meter long, elegant Baltic sea cruise liner.

The fourteen days spent on the island gave us the pleasure to log a total 74.495 QSOs. We think that qualifies for an unofficial DX-pedition world record, and we sincerely thank everybody for giving us a call.

The breakdown by bands and modes looks as follows:

Band	CW	SSB	TOTAL
160	746	428	1174
80	2074	1834	3908
40	3679	2782	6461
30	1640		1640
20	11855	20058	31913
17	2990	3749	6739
15	6388	7924	14312
12	1398	1024	2422
10	2140	2556	4696
RTTY			1195
SAT			35
TOTAL	32910	40355	74495

Helping to make the 4J1FS operation a success were numerous supportive groups and individual hams that we would like to acknowledge with special thanks. We also owe a special debt of gratitude to the wonderful crew of M/S Kristina Brahe and her captain Pekka Kurki.

The call sign, 4U45UN, is used in commemoration of the 45th anniversary of the United Nations. It was on October 31, 1947, that the General Assembly decided that October 24th, the anniversary of the entry into force of the United Nations Charter should henceforth, be officially called "United Nations Day" and be devoted to informing the peoples of the world of the aims and achievements of the organization and to obtaining support for its work.

RADIO CLUB "OSIJEK"
P.o. box 155
31001 OSIJEK
CROATIA

VERIFIED BY

Na ostacima grada MURSE iz rimskog doba, izrastao je novi grad čije se ime prvi put u sačuvanim pisanim ispravama pominje 1196 godine. Osijek kao važno prometno i trgovačko središte, na kojem su se presjecali putevi od Zapada prema Istoku imao je burnu povijest. Do 1687 godine pod vladavinom Turaka, a poslije pod austrijskom prevlašću planski se razvija, tako da sredinom 17. stoljeća već ima preko 15.000 stanovnika. Administrativno se ujedinjuje 2. prosinca 1786, a već 1809. godine Osijek dobiva status slobodnog kraljevskog grada.

Danas sa preko 130.000 stanovnika na površini od 171 km^2 predstavlja gospodarsko i kulturno središte istočnog dijela samostalne i demokratske države Hrvatske.

On the ruins of the settlement of Mursa, a new town was founded. Its name was mentioned for the first time in preserved written documents dating from 1196. Osijek, an important traffic and trade center and an intersection of routes leading from the West to the East, has had a turbulent history. All until 1687, during the period of the Turkish rule and afterwards, under the Austrian administration, it had developed according to the plan and the middle of the 17th century saw Osijek with over 15.000 inhabitants. On December 2, 1786 the administrative unification took place and in 1809 Osijek was granted the status of the free royal town.

Today, with its 130.000 inhabitants and stretching over the territory of 171 km^2 Osijek is the economic and cultural center of the eastern part of the independent and democratic Republic of Croatia.

THE LUXEMBOURG AWARD

1. The LX Award has been issued since 1970 by the "Réseau luxembourgeois des Amateurs d'Ondes Courtes" (RL), a member Society of IARU, in commemoration of 50 years of radio amateur activity in the Grand-Duchy of Luxembourg.
2. The Award is available to licensed radio amateurs and short wave listeners.
3. All LX contacts made by radio amateurs since 1. January 1951 count for the LX Award.
4. The Award is issued in two sections :
   a) **The HF Award :**
      Applicants must provide proof of having obtained the following number of points :
      European stations : 30 points (of which at least 20 % should be on 1.8 , 3.5 or 7 MHz). Each contact counts 1 point.
      Non-European stations : 20 points.
      Each contact on 14, 18, 21, 24 and 28 MHz counts 1 point.
      Each contact on 1.8 ; 3.5 ; 7 and 10 MHz counts 2 points.
      If the same station has been worked on all HF bands, European stations may count 10 points and non-European stations 15 points.
   b) **The VHF Award (30 MHz and above) :**
      Applicants must provide proof of having obtained a total of 30 points. Contacts on 144 MHz count 3 points. Contacts on 432 MHz or above count 5 points. Contacts via earthbound repeaters are not valid.
5. The same station may be worked once on each band in different modes.
6. There are no restrictions on mode.
7. Applicants should submit a list showing the date, station worked or heard, time, band and mode, duly certified by two licensed radio amateurs or by the awards manager of their society.
   Applications should be sent to :
   Réseau luxembourgeois des Amateurs d'Ondes Courtes
   The Awards Manager
   P.O. Box 1352
   L-1013 Luxembourg
   The fee for the Award is 10 IRCs or 8 US dollars or 200 Flux.
8. Any dispute concerning the LX Award shall be settled definitively by the Board of the RL.

AA1IZ
Gallops Island

IOTA: NA 148 **Gallops Island** **AA1IZ** US: MA 025 S

Gallops Island, located in Boston Harbor at 42° 19.5'N lat and 70° 56.4'W long, is one of 16 islands that make up the Boston Islands State Park. Its 16 acres, once a summer residence for Native Americans, was named after Captain John Gallop, who owned the island in the early 17th century. Through the years it was used as farm land. In 1886 Boston opened a quarantine hospital to accommodate sick immigrants. Between 1940 and 1946 the US government established and ran the Gallops Island Radio School, where over 5000 men were trained. This DXpedition is the first radio activity on Gallops Island in 50 years. We dedicate our efforts to the memory of those who were here before us.

Our station consisted of a 4.5kw generator, a Yaesu FT890AT, and an FL2100B amplifier running 600watts into either a 4 element tribander or a 180ft center-fed zep. By Sunday afternoon we had over 1000 QSOs and had demonstrated amateur radio to hundreds of weekend visitors to the island. We logged with Super Duper IOTA.

Our thanks to the Boston Harbor State Parks for granting us permission to operate, to the members of the Framingham ARA for their support, and to all the stations that came up on frequency to work us.

Two contest-operations made it possible to work the TK1-prefix from Corsica on HF for the first time. The Corsica Contest Club operated as TK1A during CW WPX Contest SSB in March 1996. Later, in October, the same team from CCC together with some members of the Bavarian Contest Club put TK1A on the air in the CQ WWDX Contest SSB. After some common operations in the past, this one was the most successful and it hopefully will not be the last.

DF4TD

For 48 hours, TK5EL represented "la voix de la Corse the voice of Corsica" in the world's biggest radio event: the CQ World Wide Contest! In true sportive fashion, the activity took place from the sport stadium of Corbara, a little town on the north coast of Corsica. The station and antennas were set up in four days and removed on Monday after the contest. Nothing broke and everything worked flawlessly what a bore! During our next stay on Corsica, however, we hope to have a chance to see more of this marvellous island in the Mediterranean.

Our sincere thanks and appreciation goes to: TK5EL + XYL, DARC OV PØ9, DL8OH, DL7MAT, DL1MAJ, DJØIP, DK2OY, DLØTUM, DL3LAB, DJ3NY, M. Luiggi of the Commune Corbara and the personnel of the Auberge Pedrinella.

OP list: TK5EL + DF4RD, DF4TD, DJØMBU, DL5MAE, DL5MFF, DL6RAI.

QSL ok x WWWSP award (see rule below)

Pse QSL *73 de II7I DX TEAM*

The Daunia Dx Club takes pleasure in issuing the "Worked World Wide Special Prefixes" Award. This color certificate is open to all licensed Hams and SWL ... way contacts/heards of:

- 1 or more hams from at least 5 different continents (Europe, Asia, North America, South America, Africa, Oceania), having a special prefix in the call sign. A QSO/heard with Antarctica -not required the special call- can substitute only one of the 5 special prefixes required.
- Submission of QSL cards is not required: you can send your log checked and verified by two radio amateurs or by a local officier of your Amateur Radio Society.
- There is no time restriction
- The W.W.W.S.P. fee is 10 U.S. $ for EU and Dx and £ 12.000 for italian Hams.
- The W.W.W.S. P. award may be issued for specific bands or modes.
- Each Year a special prize will be awarded to the highest scoring station, both italian and EU/DX. (score = $\frac{\text{special prefixes worked x number of worked continents}}{\text{Worked bands}}$)

Exemple: worked 15 special pfx in 6 continents on 10, 15, 20 meters (3 bands): 15 x 6 = 90 90 / 3 = 30 points.

Award manager will supply information on the current ranking. Information is free of charge if the request comes with the award application, otherwise, a S.A.S.E. is suggested.

Send your requests to: Daunia Dx Club award manager: **IK7RWD Miky D'Apote, via Campanile F2 71036 Lucera (FG) ITALY.**

The Daunia Dx Club is "born" on 1994 in Foggia ARI (Associazione Radioamatori Italiani); it is devoted to promote and support Dx and Dx operations, to train ARI local young operators, to promote goodwill and friendship among all radio hams in the world.

Joining the Daunia Dx Club is free to all Hams that will obtain one of two following awards:
the **WWWSP** *Worked World Wide Special Prefixes* the **WISP** *Worked Italian Special Prefixes*

Guyana

Guyana is a tropical country on the northern shoulder of South America, 215,000 sq km in area approximately the size of Great Britain, and bordered by Venezuela, Brazil, Suriname and the Atlantic Ocean.

Guyana first gain European notice in 1498 with the voyages of Christopher Columbus, it was the stage for competing colonial interest – British, French, and Dutch – until it officially became British Guyana in 1831. In 1966 the country gained independence, and adopted the name Guyana.

Imagine Guyana

Imagine a place of incredible beauty where nature still reigns supreme, where time has stood still or at least moved at a slower pace to the rest of the world. Imagine a city built almost entirely of wood in the beautiful colonial style architecture that has no comparison elsewhere in the world. Imagine pure, fresh rivers of dark, deep waters reflecting like mirror, the lush and vibrant rainforest that crowds their banks. Imagine the brilliantly coloured birds and butterflies that swoop and soar over their polished surfaces. Imagine a thousand breathtaking waterfalls and magical creeks. Imagine virgin rainforest, home to an innumerable species of rare exotic plant and animal life. Imagine majestic mountains and rolling savannahs as far as the eye can see where ranchers and cowboys ride the last frontier on the open range. Imagine the hiss of the rawhide lasso and the dust and the danger of the coral. Imagine Eldorado, a land that nature has blessed with untold riches of diamond and gold just beneath its surface, where bold adventures set off in search of sparkling treasures. Imagine warm tropical breezes and the song of the tree frogs at night. Now open your eyes, forget imagination. This reality. This is Guyana.

QSL ROUTES
WORLD ANNUAL OF QSL MANAGERS
1995

THE MOST COMPLETE LIST OF QSL MANAGERS IN THE WORLD!

In 1991 we started with 48,000 managers, in 1995 we have 75,000. In 1991 we took 15 US$ for one single copy of our book, in 1995 we take the same price.
Orders to: QSL ROUTES · P.O.BOX 73 · D–10122 BERLIN · GERMANY
Please send payment in advance! 15 $ (cash or cheque), 20 DM or 20 IRCs.
This price includes the supplement QSL NEWS. By the way we print about 3,000,000 colour QSL cards p.a. and publish the german ham radio magazine »FUNKAMATEUR«!

CI3AT confirms QSO with W1FY

60th Anniversary of the Canadian Broadcasting Corporation

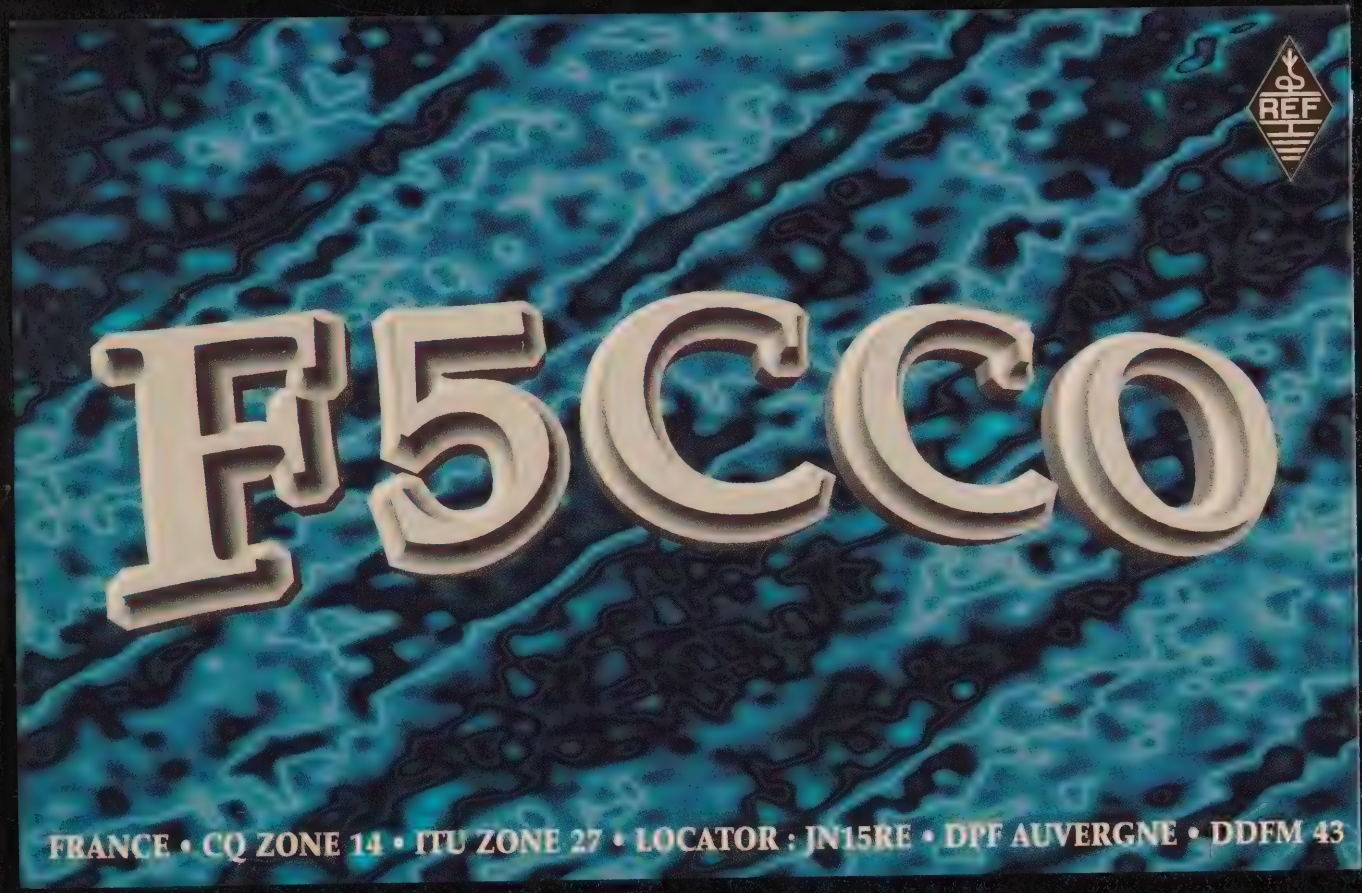

1996	UT	MHz	2Way	RST	QSL
Oct 26	0314	7	SSB	59	Pse

Thanks for the special event contact.

Bordered by Quebec to the east and Manitoba to the west, Ontario is Canada's second largest province with an area of over 1,000,000 sq. km. Toronto, the capital city of Ontario, stands on an almost land-locked harbour on the northwest shore of Lake Ontario. With a population of over 2 million, its metropolitan area covers 620 sq. km. Toronto's origins can be traced to a humble trading post settled by French settlers in the 17th century. The town served as the capital of Upper Canada and was named York when it was founded as a city in 1793. However, in 1834 it took back its original Indian name, Toronto, which means "meeting place." Since that time it has metamorphosed into the dynamic, vibrant metropolis that is the financial and industrial heart of Canada.

The scene depicted shows the Toronto skyline in the early evening looking north from Lake Ontario. The waterfront is overlooked by the CN Tower. Built between 1973 and 1975 by Canadian National, at 553 metres, it is the world's highest free-standing structure.

Ron Vander Kraats, 9 Jopling Avenue South, Islington, Ontario, Canada, M9B 3P4

Hi Jim and the club,

I thought I would send my card for the special bulletin board. I miss coming to the meetings and I miss New England; however, the new job is doing well and I have traveled alot. My last big trip was a 2 week convention (NAB) in Las Vegas, boy that city was an adult Disneyland. I hope to get the HF equip. set up at my plant and maybe can make a sch. with you sometime. It looks like they will be sending me over to Europe this summer for school. I hope to get up to Maine and the Cape this summer too - Hope to see you soon.

About the Verse on the Front:

Every one of us would like to make peace with God. The Bible says: ''For all have sinned and come short of the Glory of God'' (Rom. 3:23). Because we cannot work our way back to God, someone had to pay the price to redeem us back to God. In fact, He would have to die to pay the price. This one that was slain did not die just for his own family or race but for those of every kindred, tongue, people and nation. His name was Jesus and He died for you. You can be reconciled to God if you will trust in Jesus Christ as your Savior (see Rom. 10:13). May God bless you as you seek Him.

ITU ZONE II
BILL BAKER, WA9L
San Pedro Town
Ambergris Caye
Belize Central America

Belize is a small country in Central America, a bit larger than Massachusetts, with a population of just over 210,000 people. Granted independence in 1981, but still a member of the British Commonwealth, Belize enjoys a bustling economy and a stable democratic government.

English is the offcial language and the literacy rate is an amazing 96%-topping the U.S. It's friendly people comprise an ethnic potpourri of its Creole, Carib, Metizos and Mayan heritage.

Ambergris Caye can be reached within a two hour flight from Houston, New Orleans, or Miami, and a 17 minute hop from Belize airport via commuter plane to San Pedro Town. The population is only 2,000 and the predominate sounds are the wind and the sea.

Beyond the island, sometimes as close as a quarter- mile, trails the 200-mile-long Belizian giant coral reef. It is second only in size and diving adventures to the Great Barrier Reef of Australia. The average year round temperature is 79 degrees and the water visibility between 50-200 feet

Just 150 feet from the ham shack is a host of exciting Caribbean outdoor fun which includes diving, snorkeling, fishing, wind surfing, sailing, and exploring.

The shack is part of Belize Yacht Club, and is available for renting beginning in December 1990. For more information on vacationing in Belize contact: Belize Yacht Club; San Pedro Town; Ambergris Caye; Belize Central America. be sure to request unit #16. That's where the Kenwood 440S; 922 amplifier; and 2 element quad live!

The SLOVENIA CONTEST CLUB associates active contesters from Slovenia, an independent and sovereign country since 26 June 1991. With over 50 active stations, operating mostly from special contest locations, no wonder our club members are commonly found in the top ten lists of major international events.

CONNECTING PEOPLE

WE PROVIDE THE BASIC CONNECTIONS WITH THE LATEST TECHNOLOGY

Communication technology is advancing at great speed – so fast that sometimes seems that people get left behind.

We at Nokia are playing our part in quickening the pace of progress by providing those telecom connections – or just simply connecting people. Nokia technology connects people, in words and pictures, voice and data, at work and at home, as well as along the road.

Nokia has provided many public and dedicated networks and is leader in digital cellular systems as well as a major supplier of cellular mobile phones worldwide. With more than 34,000 skilled employees, Nokia´s resources and expertise are placed behind every customer in Europe, Asia and Americas.

Now, more than ever, Nokia is connecting people and businesses worldwide with high quality telecommunication product and services.

TK2C confirms the following QSOs:

Date	UT	MHz	2Way	RST
1995-OCT-28	0141	7.0	SSB	59
1995-OCT-28	1920	14.	SSB	59
1995-OCT-28	1334	21.	SSB	59

Fighting low sunspot numbers and bad band conditions is always easier from southerly regions. This hope and the tremendous hospitality we had received in 1994 lead us to another contest expedition to this marvellous tropical island in the Mediterranean. We were not disappointed! TK2C - another field day style operation included putting up towers, beams, verticals, setting up six stations and using networked computers for logging and communications.

OPs SSB: DF4RD, DF7RX, DK2OY, DK6WL, TK5EP, TK5MH and TK5NN.
OPs CW: DF9LJ, DL2NBU, DL4RDJ, DL6RAI, TK5EP, TK5MH, TK5NN, UA2FJ and UA2FM.

Antennas: Furnished by RADIO WORKS of Portsmouth, VA. We thank this fine company for supplying five of their special "UNIVERSAL" all band antennas. They functioned exceptionally well enabling us to make over **23,000 contacts in 4 and 1/2 days of operation.** No amplifiers were used.

Special thanks to the following for support and assistance in many different ways: Ken Foote of the U.S. Department of the Interior, KP2A, N1DX, WA8LOW, W6PQS, N4YIC, KP4RF, KP4PQ, JA1ELY, JA1DM, Lewis and Clark Radio Club, The Lone Star DX Association, The RTTY DX Association, Carter Rowe, Marilyn Bowker, Frank Anderson of "Moon Dog Charters" in Rincon, Puerto Rico, members of the 2500 Club, QRZ DX bulletin, The DX Bulletin, The Long Island DX Bulletin, to the many other clubs, individuals, hospitality by KP4's, and bulletins who helped with the publicity. We wish there was room to list everyone. We thank those individuals who sent a donation with the QSL card to help offset many of the non-personal expenses of this DX-Pedition. We appreciate everyone's interest and for working us from the uninhabited island of Desecheo.

QSL assistance in computerizing logs and processing is greatly appreciated and hereby expressed to KD5ZD, N5WNG, N5ORT, and others who joined in later. Thanks to all from the KP5 team.

ANIL CONT.

MA

USA

ZS6EZ

I was born in 1964 and licenced in 1980. I am a keen contester, mainly on CW. I have been licenced as 3DAØZ, ZSØZ, ZS3Z, ZS9Z and V51Z, and have run DXpeditions to these and other locations. Up to 1991, my regular callsign was ZS6BCR.

I am an electronics engineer, involved in the design, manufacture and support of security-related integrated circuits. My job often takes me to foreign countries, and I try to visit radio friends whenever possible. I am busy with graduate studies, and fly aeroplanes and helicopters part-time (with an ATP and instructor's ratings). I enjoy music (mainly classical) and cycling, and am actively involved in a local Christian church.

All this leaves little time for radio, but I manage to squeeze in a few contests annually. I also enjoy some low band DXing and RTTY. When I'm on Phone, I'm normally looking for German rag-chews to help me improve my command of that language. I hunt US counties on CW, and have about 900 of them confirmed on that mode.

My wife and I live south of Pretoria, but my station is at my parents' house in the city. One tower supports 2 el on 7 MHz and 5 el on 14 MHz, while the other supports a 4/4 stack for 28 MHz and 4 el on 21 MHz, and is shunt fed as a low band vertical. All antennas are between 13 and 22 m high–the urban environment allows nothing better. Power output is between 4 and 400 W, depending on how patient I feel. A big contest station outside the city is in planning, together with several other ZS operators.

I hope you find this QSL useful, or at least interesting. The Lone Star DX Association from Texas, USA, helped to bring it to you. Thanks, guys!

THE LUXEMBOURG AWARD

1. The LX Award has been issued since 1970 by the "Réseau luxembourgeois des Amateurs d'Ondes Courtes" (RL), a member Society of IARU, in commemoration of 50 years of radio amateur activity in the Grand-Duchy of Luxembourg.
2. The Award is available to licensed radio amateurs and short wave listeners.
3. All LX contacts made by radio amateurs since 1. January 1951 count for the LX Award.
4. The Award is issued in two sections :
   a) **The HF Award :**
      Applicants must provide proof of having obtained the following number of points :
      European stations : 30 points (of which at least 20 % should be on 1.8 ; 3.5 or 7 MHz). Each contact counts 1 point.
      Non-European stations : 20 points.
      Each contact on 14, 18, 21, 24 and 28 MHz counts 1 point.
      Each contact on 1.8 ; 3.5 ; 7 and 10 MHz counts 2 points.
      If the same station has been worked on all HF bands, European stations may count 10 points and non-European stations 15 points.
   b) **The VHF Award (30 MHz and above) :**
      Applicants must provide proof of having obtained a total of 30 points. Contacts on 144 MHz count 3 points. Contacts on 432 MHz or above count 5 points. Contacts via earthbound repeaters are not valid.
5. The same station may be worked once on each band in different modes.
6. There are no restrictions on mode.
7. Applicants should submit a list showing the date, station worked or heard, time, band and mode, duly certified by two licensed radio amateurs or by the awards manager of their society.
   Applications should be sent to
   Réseau luxembourgeois des Amateurs d'Ondes Courtes
   The Awards Manager
   P.O. Box 1352
   L-1013 Luxembourg
   The fee for the Award is 10 IRCs or 8 US dollars or 200 Flux.
8. Any dispute concerning the LX Award shall be settled definitively by the Board of the RL.

W1FY

THE LUXEMBOURG AWARD

1. The LX Award has been issued since 1970 by the "Réseau luxembourgeois des Amateurs d'Ondes Courtes" (RL), a member Society of IARU, in commemoration of 50 years of radio amateur activity in the Grand-Duchy of Luxembourg.
2. The Award is available to licensed radio amateurs and short wave listeners.
3. All LX contacts made by radio amateurs since 1. January 1951 count for the LX Award.
4. The Award is issued in two sections :
   a) **The HF Award :**
      Applicants must provide proof of having obtained the following number of points :
      European stations : 30 points (of which at least 20 % should be on 1.8 ; 3.5 or 7 MHz). Each contact counts 1 point.
      Non-European stations : 20 points.
      Each contact on 14, 18, 21, 24 and 28 MHz counts 1 point.
      Each contact on 1.8 ; 3.5 ; 7 and 10 MHz counts 2 points.
      If the same station has been worked on all HF bands, European stations may count 10 points and non-European stations 15 points.
   b) **The VHF Award (30 MHz and above) :**
      Applicants must provide proof of having obtained a total of 30 points. Contacts on 144 MHz count 3 points. Contacts on 432 MHz or above count 5 points. Contacts via earthbound repeaters are not valid.
5. The same station may be worked once on each band in different modes.
6. There are no restrictions on mode.
7. Applicants should submit a list showing the date, station worked or heard, time, band and mode, duly certified by two licensed radio amateurs or by the awards manager of their society
   Applications should be sent to :
   Réseau luxembourgeois des Amateurs d'Ondes Courtes
   The Awards Manager
   P.O. Box 1352
   L-1013 Luxembourg
   The fee for the Award is 10 IRCs or 8 US dollars or 200 Flux.
8. Any dispute concerning the LX Award shall be settled definitively by the Board of the RL.

W1 FY

Op: ON4UN. Thanks QSO in the 1997 ARRL PHONE DX CONTEST

Rig: FT1000MP+2KW. Ant: ON4UN 4-square + Beverages

MEMBER OF RRDXA

since 1962

Over the past few years the members of the **TLS Radio Club** (**UBA** club) and my friend and antenna guru, ON6WU, helped building a competitive multi-single / single-op contest station. During CQ WW contests some 25 club members take care of the spotting stations, packet info network etc. We are a great team !

During international contests the station is activated either with the call ON4UN or the special call OTxT, where x indicates the year (e.g. OT6T in 1996).

The station is used both to train young and inexperienced contesters, as well as for giving experienced champions the chance to put down a European or World performance. Some of the visiting station operators in the past years were: ON6TT, ON4WW, ON4AFZ, ON5UK, ON7LX, F6EXV, DJ4AX, DL5XX, DL1SBR, DL1VJ, DJ6QT, DK1FW, RA3AUU, AB4MJ, K2UO etc.

Equipment: two **YAESU** FT1000MP's (the best!) and two home made amps (2 KW).

Antennas (ON4UN design, home made):

10 m: 6 el 11 m boom at 19 m
15 m: 6 el 11 m boom at 22 m
20 m: 5 el 15 m boom at 25 m
10/15/20m: 3-band yagi at 20 m
40 m: 3 el 11 m boom at 30 m
4-square, elevated radials
80 m: 4-square, elevated radials
inverted-V dipole
160 m: 1/4 wave vertical (250 radials)

Receiving antennas: 12 Beverages, one per 30°, 200 to 300m long (only in winter time across farming land).

Filters: Braun receive-only preselectors. Dunestar low-power band-pass filters and home-made 2 KW band-stop filters.

QSL to **John Devoldere**
P.O.Box 41
B9000 Ghent, Belgium
OR via BUREAU

Contesting is the ultimate test for station and operators. While you can be very successful in DX-ing with a simple station complemented by an excellent operator and lots of patience, you can only put down top-notch results in international contests with a well-engineered station and with the best operators.

Besides contesting, my radio interests are in antenna designing and building, low band DX-ing, building equipment (all equipment except for the transceivers is home-made), chasing DX on 80 and 160 m, and writing books (do you have my LOW BAND DX-ING book by the ARRL?).

By the way, **I LOVE CW**, and... I hate lists..

Please call ON4UN and OTxT in any contest you hear us. Thanks !

73, Dave
Mgr., Dave, WJ2O

Operators from left to right: Andre, ZS6WPX; Sam, ZS6BRZ; Dave, WJ2O

Swaziland was settled by the Swazis in the early 1800s. The British assumed control of the land after the Boer War in 1903, and ruled until independence in 1968.

Piggs Peak is a small village in the North-West corner of the country. The terrain is very hilly affording a visitor many breathtaking views.

DD/MM/YR	GMT	BAND	MODE	RS
29/03/97	1746	20m	2xSSB	59

Over the past few years the members of the **TLS Radio Club (UBA** club) and my friend and antenna guru ON6WU helped building a competitive multi-single / single-op contest station. During CQ WW contests some 25 club members take care of the spotting stations, packet info network etc. We are a great team !

During international contests the station is activated either with the call ON4UN or the special call OTxT, where x indicates the year (e.g. OT6T in 1996).

The station is used both to train young and inexperienced contesters as well as for giving experienced champions the chance to put down a European or World performance. Some of the visiting station operators in the past years were: ON6TT, ON4WW, ON4AFZ, ON5UK, ON7LX, F6EXV, DJ4AX, DL5XX, DL1SBR, DL1VJ, DJ6OT, DK1FW, RA3AUU, AB4MJ, K2UO etc.

Equipment: two **YAESU** FT1000MP's (the best!) and two home made amps (2 KW).

Antennas (ON4UN design, home made):

10 m: 6 el 11 m boom at 19 m
15 m: 6 el 11 m boom at 22 m
20 m: 5 el 15 m boom at 25 m
10/15/20m: 3-band yagi at 20 m
40 m: 3 el 11 m boom at 30 m
4-square, elevated radials
80 m: 4-square, elevated radials
inverted-V dipole
160 m: 1/4 wave vertical (250 radials)

Receiving antennas: 12 Beverages, one per 30°, 200 to 300m long (only in winter time across farming land)

Filters: Braun receive-only preselectors, Dunestar low-power band-pass filters and home-made 2 KW band-stop filters.

QSL to	**John Devoldere** **P.O.Box 41** **B9000 Ghent, Belgium**	OR via BUREAU

Contesting is the ultimate test for station and operators. While you can be very successful in DX-ing with a simple station complemented by an excellent operator and lots of patience, you can only put down top-notch results in international contests with a well-engineered station and with the best operators.

Besides contesting, my radio interests are in antenna designing and building, low band DX-ing, building equipment (all equipment except for the transceivers is home-made), chasing DX on 80 and 160 m, and writing books (do you have my LOW BAND DX-ING book by the ARRL?).

By the way, **I LOVE CW**, and... I hate lists..

Please call ON4UN and OTxT in any contest you hear us. Thanks !

Guyana

Guyana is a tropical country on the northern shoulder of South America, 215,000 sq km in area approximately the size of Great Britain, and bordered by Venezuela, Brazil, Suriname and the Atlantic Ocean.

Guyana first gain European notice in 1498 with the voyages of Christopher Columbus, it was the stage for competing colonial interest – British, French, and Dutch – until it officially became British Guyana in 1831. In 1966 the country gained independence, and adopted the name Guyana.

Imagine Guyana

Imagine a place of incredible beauty where nature still reigns supreme, where time has stood still or at least moved at a slower pace to the rest of the world. Imagine a city built almost entirely of wood in the beautiful colonial style architecture that has no comparison elsewhere in the world. Imagine pure, fresh rivers of dark, deep waters reflecting like mirror, the lush and vibrant rainforest that crowds their banks. Imagine the brilliantly coloured birds and butterflies that swoop and soar over their polished surfaces. Imagine a thousand breathtaking waterfalls and magical creeks. Imagine virgin rainforest, home to an innumerable species of rare exotic plant and animal life. Imagine majestic mountains and rolling savannahs as far as the eye can see where ranchers and cowboys ride the last frontier on the open range. Imagine the hiss of the rawhide lasso and the dust and the danger of the coral. Imagine Eldorado, a land that nature has blessed with untold riches of diamond and gold just beneath its surface, where bold adventures set off in search of sparkling treasures. Imagine warm tropical breezes and the song of the tree frogs at night. Now open your eyes, forget imagination. This reality. This is Guyana.
